

SHADI

Types of dates and derivatives

Company overview

Shadi Trading Company has been active for many years ago by relying on experienced experts and high-tech equipment to increase the export of date fruit and its derivatives. This company is one of the top producers of date fruit and its derivatives such as date syrup, date chips, etc. in the Middle East and tries to increase the quality and quantity of its products to meet the needs of traders and merchants around the world. Moreover, at Shadi Trading Company, we examine the quality of our products by establishing cutting-edge laboratories to ensure the quality of our products.

Business Description

Date fruit is the fruit of the palm tree and is one of the most important sources of vitamins and nutrients in the human body. This fruit has been the main food of the people in the Middle East and India for years, and its cultivation dates backed to seven hundred years ago. The expansion of utilizing date fruit began in southwest Asia and then was introduced to the west. The popularity of this product has increased day by day among the people of the world and has led to the development and growth of its trade therefore many countries have produced these goods in order to have a share in the trade of this product, Algeria, Egypt, Iraq, and Oman are among the largest producers of these products in the world. Shadi Trading Company uses modern and state-of-the-art machines and strives to produce high-quality products and offer them in global markets. This company has managed to turn into one of the top producers in this field by meeting the needs of traders and merchants in the Middle East.
